

Pleasant Forest Camping Club has become a legend within her 50-year history.

Its mission statement and its duty to preserve its natural environment with its recreation, could not have built its legacy alone. The loyalty, hard work, drive and the heart and soul of every member that has come before us, is the Pleasant Forest Legend.

PFCC has taught us many things. Things as pride, unity, respect and tolerance of differences. Our club taught us to stand strong and be as one when the situation calls for it. It has taught us dignity, compassion and empathy. PFCC has taught us to be a family.

Our mission statement means more than its duty to physical environment and recreation. Our mission is to provide and promote safety, a sense of belonging, and pride for each member, their families, their friends and their neighbors. A place where each member can come together, enjoy the surroundings and build meaningful relationships within is unique and distinct natural setting.

Today we are failing a huge population, a population that is very dear to our hearts, to our family. They are our best friends, and they are right here within our homes. We do not honor them; rarely do we celebrate them. Our best friends are often pushed aside and ignored. A forgotten group who is a huge part of this club's social circle. Part of the PFCC roots and foundation and part of its unique surroundings. Our pets are the very backbone of each one of us.

Our pets promote positive social interactions amongst its members. An essential part of this club's history and its vitality. This club's foundation was made in part of our pets.
